

Fourth Year.  
Circulation  
LARGEST IN THE CITY.

Purely Business!  
The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can give his customer free gifts of goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

The Continued Calls  
Upon This Ledger for free notices have become so burdensome that we are forced to publish the following terms:

For Notices of Suppliers,  
executions, sales, or other public entertainments where a fee is charged, and for obituary notices, remissions of request, etc., the Ledger will charge FIVE CENTS a LINE, and hereafter this will be the invariable rate. This, however,

Does Not Include  
notice of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.  
Misunderstandings are unpleasant. The rate for Business Leads in THE LEDGER is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line local insertion. The bill is \$1.00. When the bill is \$1.00, the bill is \$1.00. When the bill is \$1.00, the bill is \$1.00.

WE'VE LOST OUT AGAIN!

THE KNOXVILLE GET THREE GAMES OUT OF FOUR.

Our Boys Appear to Have Been Out-classed All Along the Line-But, of Course, "The Empire Did It!"

Truheart Taylor of the Huntington team, who has a good reputation as a ball pitcher, is in receipt of a letter from the manager of the Cincinnati Naves, asking him to pitch a game for them in that city on August 4th.

Paul Frank, the Catlettsburg baseball man, was the good natured captain of our last year's team, is entirely out of baseball, as he is still with the surveying party in Wolfe county, where he will remain the rest of the season.

Wonder how the boys will explain that! The first game they played in Knoxville resulted in a score of 18 to 5 in favor of the Locals. The next three games weren't in it a little bit. There's something rotten in Copenhagen sure.

The Covington Commonwealth, speaking of Latham of the Cincinnati Reds, says that he has won a little prize, and that Mayville would not have him if he would play ball for nothing. "You are right, brother. We don't want anything that comes from that aggregation of don't-know-how-to-play-ball fakes."

The game Saturday was the worst sort of burlesque. Those Knoxville fans who say it was the best game ever played on their grounds should take a trip up to the "Seven-acre City" where the game is really played. The Park here is large and roomy, and when a batter knocks a little pop-up fly, the fielder doesn't have to climb fences to get it. A hit to the fence at Knoxville was good for only two bags, while the batter that hits to the fence at East End Park gets a clean home run. But you couldn't expect the boys to play ball in a bottle.

Regular meeting of Fish and Game Commission, I. O. O. F. tonight.

The broad smile on the face of Mr. Will Smith, the gentlemanly clerk at the Spot Cash Shoe Store, can be seen for miles. It's an eleven-pound boy.

Yesterday morning as the excursion train from Huntington on the C. and O. stopped at the foot of Market street a little about 9 o'clock, was pulled out by the trucks of one of the cars. He said he came on at South Portsmouth, and that his name was Rayburn. His face was as black as a lump of coal, while his clothes, after he had on, were simply filthy.

Chief O'Connell the youngest in town, and after laundring him at the river, sent him back on the Huntington Local, together with his nerve.

A SERIOUS ACCIDENT.  
Little Luttrell Jones Receives An Ugly Kick From a Horse.

Luttrell, the five-year-old son of Mr. and Mrs. George Jones of the Sixth Ward, was the victim of a very bad accident last evening about 7 o'clock.

He, together with several other little playmates, were playing in the lot just opposite the residence of Mr. George M. Clinger.

Two horses belonging to Mr. Rufus Dryden were coming up from the river, and when near the boys someone threw a rock at them, and just as they were about to pass the boys one of them kicked up, striking little Luttrell in the back of the head.

The little fellow was picked up unconscious and carried into Mr. Clinger's residence, where he was attended by Dr. Pangburn.

Up to 6 o'clock this morning he had not regained consciousness, but was breathing a little.

For we could not be ascertained just how bad the little fellow is injured.

TWO MAYSVILLE LADIES.  
They Were Honored With Card Parties at Portsmouth.

Portsmouth, Va.

The ladies' afternoon progressive euchre party given Thursday by Miss Nellie Barr, complimentary to her guest Miss Lena Means of Maysville, was something worth seeing. There has probably been no so many bright, airy, summer gowns displayed before at one time this season as there was yesterday.

Although the day was sultry, the long drawing room of the Barr residence was comfortably cool, and the eight tables of players were refreshed during the games with cool fruit punch. There were fifteen progression, and the highest score was twenty. Miss Ann Della Power and Miss Williamson of Aberdeen were in attendance.

Miss Clara Glickner gave an attractive card party Friday night in honor of Miss Tillie Schroeder of Maysville, who is the guest of Miss Glickner and Miss Minnie Wiechen, and for whose entertainment several other parties will be given next week. There were thirty tables and fifteen names. Miss Barbara Orlett and Miss Flora Balmert won eleven games and had to play off. Miss Balmert winning the prize, a handsome white and gold plate and cup and saucer.

THE PUBLIC LEDGER'S LETTER FROM LOUISVILLE.

How Our Observant Correspondent Slices Up the Situation Throughout the State-The Discontented Democracy.

Special Correspondence Public Ledger.

LOUISVILLE, Ky., July 20th.

For nearly two weeks the Democratic papers of Louisville shook hands with themselves and glorified over the fact that they had converted the party to the financial policy of Cleveland and Carlisle. They told their readers how Jo Blackburn and Proctor Knott and John R. Rhea and Governor Brown and Urey Woodson and all the rest of the old-time Free Silver Democrats had been buried out of sight. But nominee P. Wat Harlin remained strangely silent, and finally when he came here he refused to put on the cuckoo collar and to declare that he had been a financial fool right up to the Convention; that his friends were "cranks" and "traitors," and that henceforth he would decline that Governor and Carlisle are the only statesmen and financiers in the country. Then Chairman Long, the self-constituted guardian of the State Central Committee and the party, agreed on a "compromise" by which the Democratic speakers should say nothing about the currency question. Mr. Harlin agreed to this and the Democratic papers for several days approved the scheme, but business men of both parties raised such a protest against the "compromise" that the newspapers finally abandoned it; and when Blackburn and Rhea came to the great "Harley Meeting" at the Waterson Club and refused to be muzzled, the bosses took water, and Chairman Long hastened to declare that the audacious managers had never formally decided to eliminate the currency issue, although he had himself told the papers to publish the statement. And immediately after the terrible wrangle in the Central Committee, which came near ending in a free fight, the silver men broke away and began their campaign independently of the bosses.

Now the Democratic papers have thrown aside all pretensions of party harmony and are declaring war upon all those who refuse to be bound by the orders of the "Great Secretary," and with sackcloth and ashes on their backs and dead in their mouths, to cry: "The Lord and Grover be merciful to us sinners!"

They say that Harlin must stand by his old policy and repudiate Blackburn and the free silver men to whom he owes his nomination, and put himself in the hands of the very men who packed the Convention against him and tried to prevent his nomination. But so far the colored boy who wore his suspenders crossed in front so that his old father declared he "couldn't tell whether he was a comin' or goin'." If he sticks to his old policy of free silver, the city papers and the so-called "money" men of the city will all go against him; and if he goes back on the silver men and agrees to denounce Blackburn as a traitor for standing by what they both said before the Convention, the free silver men will bolt the state ticket. The silver men generally say that they would rather vote for a straight-out sound money man like Colonel Bradley than to vote for a "turncoat."

But Harlin would be very foolish to go back on the silver men in the country at this stage in the game. The city Democrats are disgusted with the time-serving policy of the candidate and his platform, and will not support him anyway, so that he had better be sure to get the support of his friends in the country, and especially Jo Blackburn, who is much stronger in the country than Harlin or the ticket.

The Republicans have declared themselves no playing and finally on the currency question that Colonel Bradley has nothing to explain or "eliminate" from his platform or his own position. The fight is on well defined issues, and on these issues the Democratic party is split wide open.

In Louisville the Democratic leaders are quarreling among themselves and the two factions are irreconcilable.

The Central Committee is now in the hands of a small clique of kid glove party politicians and corporation agents, who only bring light as far as has been to get up a colored Democratic organization and thus give up all the old-time struggle of "Negro Domination."

Nothing now can save Wat Harlin but Republicanism and the support of the Republicans are not going to make any blunders. We are going to have a look at the books at Frankfort.

In the Greenup Circuit Court D. B. Warnock was acquitted of the charge of killing John Hollingsworth last November. Warnock shot Hollingsworth while he and Ed. Warnock was Deputy Sheriff at the time and his plea was accidental shooting. The prosecution was conducted by Commonwealth Attorney J. H. Saline and the Hon. Theodore K. The gross earnings of the L. and N. for the second week in July were \$574,415, an increase of \$56,795 over 1894, but a decrease of \$36,600 compared with 1893, and of \$21,925 as compared with 1892.

Some changes in the carriers of THE LEDGER today may result in better service to patrons in the East End. Any failure to receive the paper should be reported at the office, and not told to some one on the street.

William T. Berry of this city went to Vanceburg Saturday and qualified as trustee of J. L. Nash, who owns half interest in a stock of goods, store and residence at Kirk's Springs in Lewis county.

First—The Kentucky Democratic platform indorses the current plank of 1892 which The Courier-Journal a few days ago said was "a straddle."

Second—The Kentucky Democratic platform indorses the Democratic Administration of affairs in Kentucky during the past thirty years, which includes the robbery of the Treasury by "Honest Dick Tate."

Third—The Kentucky Democratic platform indorses the course of President Cleveland in voting on March 3rd, 1894, the Bland Bill, in favor of which Senator Lindsay made an earnest speech on March 13th, 1894, and for which the ten Democratic Representatives from Kentucky—Berry, Breckinridge, Caruth, Ellis, Goodnight, Linn, McCree, Montgomery, Paynter and Stone—and Senators Blackburn and Lindsay all voted.

Fourth—The Kentucky Democratic platform indorses President Cleveland for refusing to approve the Tariff Bill, which he denounced as "partly perjury and dishonor," and for which the Kentucky Democratic Senators and Representatives all voted.

Fifth—The Kentucky Democratic platform indorses President Cleveland for recommending the passage of the Currency Tax Law, which the Supreme Court has declared unconstitutional.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, the hearing power is lost, and the ear is in a state of chronic inflammation. It is entirely closed, and the result is, unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness if it cannot be cured by our Catarrh Cure. Send for circulars free.
